Judge Culver is a rer-conage who is well known, not only in Williamsburg, where he lives, but in this city and elsewhere. He is understood to be a man of strong opinions on several political and social questions. However this be, Judge Culver seems, by some However this be, Judge Culver seems, by some proceeding or other, to have given mortal offense to certain of his co-disciples in the Baptist faith at Williamsburg; and accordingly, some weeks since, ecclesiastical proceedings were duly instituted against him, not for the alleged license of his tongue, not for the freedom and looseness of his opinions, but for—can it be believed?—for an alleged sinful commerce with one Widow Brown, a person whose husband had the misfortune to be stilled some veers are

illed some years ago.

The indictment laid, the deacons of the First captist charted in Williamsburg fell to examining the case. They summoned all manuer of witnesss and put them through the customery incident nterrogatories. One can easily perceive how hese deacons relished the job, and licked their lips these deacons relished the job, and licked their lips at the foul and prurient parts of the examination. Indeed, the only feature in their conduct which can be compared to the prurience of their imaginations is the intensity of their stupidity, in receiving all kinds of hearsay evidence, and finally making up a case on which the Judge was found willtre.

uilty.
This, however, was done. It had probably been esolved before hand; and if poor widow Brown onld have seen a idow Smith to take her place. By a formal sen-ence of the deacons Judge Culver was expelled om the church, and left to pursue his remedy in

gher courts. We believe that the case is unparalleled in mod rn times. In the early history of New England uch cases were not uncommon: we find several of hem in Winthrop's journal; and it is impossible not to persuade one's self that they were often got p by the judges for the sinful pleasure of putting indelicate questions to blushing maidens, and ex-orting indecent revelations from young wives.— The peculiar taste—such as it is—seems to have lescended to the deacons of the First Baptist church of Williamsburg. But when the gratification of such pleasures involves, as it has done in this case, nindecent and miserable scrutiny of a man's care, in indecent and miserable scrutiny of a man's rivate life, they ought to be stopped. No one of is is safe if any enemy can accuse us of having ounmerce with a widow, and charge us and our amily, wife and daughters, through the scandalus ordeal of an ecclesiastical prosecution for formation. cation. In such a case an acquittal is no conso ation for the outrage. And when we are judged by deacons, we have no security that we shall be

by deacons, we have no security that we shall be judged according to the evidence.

LETTER VROW JUDGE CELVER.

The long pending prosecution of the leaders of the First Baptist church against me was, this morning, brought to a termination. The five months ex parts labors of two committees were last uight moulded into form, and delivered in the shape of a report. I had not been permitted to be present at the taking of a particle of testimony relating to the charge which had been gathered up by the committee which made the report, though I had in the outset been given to understand I should have that right. A copy of the evidence had also been denied me. When this motley report was made a motion followed to exclude me from the church. I asked thereupon—First, that the report be pnryged of all mere hearsay statements. Second, of all evidence not in writing, nnless given be purged of all mere hearsay statements. Second, of all evidence not in writing, unless given by a church member of some faith and order, and cited the very highest Baptist church authority in support of my position. Both requests were ruled down. I then asked for a short time to prepare counter evidence and get ready for trial. This was refused. My friends then asked that as the committees had had five months to gather up their evidence, that I might have at least till Monday evening to prepare to meet it, especially as it was then about 11 o'clock. This was denied. I was thereupon directed to enter forthwith upon my defense, if I had any. I protested, but then took up and read what evidence I had taken on the boints, which rumor had said I was to meet. points, which rumor had said I was to meet.— This occupied till one o'clock. Having completed my testimony, I then asked as a special favor to my testimony, I then asked as a special favor to use that the case might be laid over to any evening the church might name, in order to sum up on their and my voluminous evidence. This was denied. I then addressed them at some length, endeavoring to give priest and deacon, committee and layman, some little memento by which they could call me to remembrance in after time. A little before two o'clock, under the gag rule moved by a deacon, out of a meeting of about one hundred and sixty, sixty voted to sever my head, and thirty-two (really thirty-seven) voted in my

hundred and sixty, sixty voted to sever my head, and thirty-two (really thirty-seven) voted in my favor—a large mass of substantial members refusing to vote at all, believing the whole proceeding irregular, and yet not wishing to offend the minister and deacons. I immediately notified the church that I appealed, and asked them to usite in a mutual council to review the case. This was not granted. I then gave them notice, in accordance with denominational usage, that I should call an ex parte connoil. That promise I intend to teep to their discomfiture. I shall convene it early, and review this whole motocratic proceeding.

A correspondent of the Sacramento Union, fellow-citizens of the city of Lonisville as writing from Port Townsend, Washington Terriory, May 11th, says: Since my last, the gold excitement has kept a teady pace, notwithstanding that a large portion of those who started for the mines have returned

The reasons given by them are the great freshet in the head waters of Frazer river, which makes it almost an impossibility for a cance or boat to ascend, and provisions being very scarce and high. All those that have retur reports, but agree that the first of August 18 as soon as they can work there to advantage. conversation I had with Captain Monatt, of Hudson Bay steamer Otter, which steamer just returned from Fort Langley, he informs me that the company were satisfied that the mines are extensive, covering a large tract of country, and they will average as high as \$1.2 to the man as soon as the river falls. He also stated that there had been some dry diggings struck; but he, like all the rest, advises no one to attempt to go to the mines till atter the first of August.

The opening of these new gold mines has started quite a fever to speculate in sites for cities. They have two laid out at Bellingham Bay, and They have two laid out at Bellingham Bay, and the English talk of establishing one at the mouth of Frazer river. Each of them is stated to be the place and only direct road to the mines. Our Territory is getting flooded with goods from California, and before long, there will be many a trader and speculator who will carse the day he heard of the Frazer river, gold mines. As for this place, it has his matural devantages, and it is growing gradually buy sing. Our lumber business is increasing very rapidly, and with the discovery of gold puts saute a different face on our becoming, as tale to what his was a year ago. Our little place is through dominated with the weak all moving on a half runtion but takes will miss a chance to attake their, forthnes.

The following of an extract of a letter from C. S. Ellis, formerly of the circ, to Figg & Moore, merchants on J street, dated at F. rt Langley, April 16th.

I have arrived at this place, which is about forty miles from the mouth of the Frazer river. We are three in number, and shipped from Belling ham Bay, on the Sound, in a cance. We had a rough time of it. We are about sixty miles from the mines. The river is rising, and the miners had been compelled to leave their claims on the river and go to the ravines, as they found the gold plentiful there. There are very few in the mines, as yet; but a great many are on their way, and a great many waiting at Bellingham Bay to go by land, as it is only sixty miles from that point to the mines. I am perfectly satisfied that this is a second. Unlifornia, and am also certain that men have made from \$25\$ to \$1.00 per day to the hand. I would say to you, if you wish to make a big pile of money, start immediately for Bellingham Bay, for that is the point any size of vessel can reach, and also being the nearest point to the mines.

Attention, Democrats! The Democrats of the First and Second Wards will meet on Friday night, July 2d, at Schwind's Exchange, north side of Jefferson street, between Hancock and Clay, to nominate a candidate for Instice of the Peace in the First district. A universal attendance is required, as other business of importance will be transacted.

Our Anti-Lecompton Neighbor. Some time ago we commenced doctoring out neighbor of the Democrat for his anti-Lecompton madness, but he got no hetter fast, and we left him in the hands of time to effect the cure. We put bim on probation until the 1st of July at which time he was either to lose his hend or re gain his place in the Democratic ranks. As the end of the probational period drew near, we had strong hopes of saving our neighbor, but the day has come, and he is not yet out of danger.

He has quit writing his long and heavy articles in support of his anti-Lecompton heresy. He agreed to vote for Lecompton Democrats in preference to anti-Lecompton Know Nothings. He actually put the names of anti-Lecompton Democratic candi dates at the head of his columns, and occasionally said a word in favor of some of them. These things looked well, and we began to think that all would be right with our neighbor by to-day.

But our neighbor did a very wrong thing yes terday, which sets him back considerably. He again denounced the Presidents' Kansas policy, which is the doctrine of the South, in very bitter terms. He said that the Democrats who were in favor of admitting Kausas as a slave State, had split up the party. In thus speaking, of course he reminded every one of the juryman who accus ed his eleven bretheren of being berr stuhborn fellows; for the Lecompton Democrats in this part of the country, at least, are eleven tubes as nu-

merous as the anti-Leconumbin.

Our neighbor has alor bad too well to be executed just there and loo bad to be at once forgiven. We shall therefore, extend his probational period a little longer. We don't want to give him up for lost while there is a lope of saving him, and we can't take him into full Democratic fellowship up til his record is clearer We think, however, that we shall get him right by the first of August .-We shall give him until then anyhow, and then finally determine what to do with him.

THE HOTTEST DAT OF THE YEAR.-It had been predicted that the present summer would be the warmest we have had for many years, and vesterday came fully up to the warmest expectations of the most sanguine. In our experience, it was the nottest day we have ever encountered, the ther nometer at 6 o'clock in the morning indicating 82 in the shade, and at 10 o'clock in the morning it ranged as high as 90 at Ramsey's, on Main street. That was warm enough, in all conscience for anybody, but during the day the heat gradual y increased, the mercury running up to 94 at 5 o'clock in the afternoon, and at 3 o'clock it stood at 95.

The thermometer was in the shade, fully pro ected from the rays of the sun, the test a fairone. and the weather the most oppressive of the season THE TRIAL OF REAPERS AND MOWERS .- The

grand trial of reapers and combined machines or the premiums offcred by the Kentucky State Agricultural Society, took place vesterday on the farm of Col. Stephen Ormsby, 9 miles from the city, on the L. & F. Railroad.

The exhibition was had in an eighty acre field of wheat, and many agriculturalists and others interested, from home and abroad, were in attend ance. Our own farmers particularly manifested a desire to investigate the merit and improvements in machinery pertaining to scientific farming .-The day was propitious, the clouds to some extent essening the fierce rays of the sun; and although warm it was not unpleasantly so. The grain was rather thin, and the heads not sufficiently heavy to reap to advantage, but stood upright; the ground was nearly a dead level, and free from all obstructions. With these advantages, the trial could not have resulted unsatisfactorily.

Each machine was required to cut three acres Of combined machines there were five entries, but only three showed. Rugg's cenire draft and Kirby's combined machine of Buffalo were not on the ground. We were impressed with the idea that Atkin's self-raker, as a reaper simply, was nost generally commeuded. It is strong, compact, and simple in machinery, and was not ex celled in quantity and quality of work. The perfeet adjustability of the Kentucky Harvester was mequalled. Miller, Wingate & Co.'s Moore & Patches' reaper, which cuts seven feet and do. posits its gavels well, was universally admired The following is the unofficial time made by the

He truly gave the "fat of the land," and in a style most unexceptionable. GREAT C ATTHE THE PHYSICIANS HAD FAILED.
RUSSELLVILDE, OHIO, Jan. 10, 1856.—Dr. C. M.
Jockson—Dear Sir.: We would inform you that
we are out of Hobland's German Bitters, which are very ready sale. One of our neighbor's has heen doctoring for some time, (we think about true, years, with all the doctors in the country,) but ull of no avail. He looked as much like a dead man going about as anything we can compare him to isease appeared to be an overflowing of the With hard persuasion we prevailed on him

His disease appeared to be an overlicering of the gall. With hard persuasion we provailed on him to try your Bitters, with the promise to him, if it did no good, we would charge him nothing for it, provided he took six bottles according to the directions, which he has done, and is now entirely cured, and has become a well man. This cure has created a great sale in the neighborhood." Respectfully, EDWARDS & BROWN. Ask for Hooflands's German Bitters, and take nothing else. See that the signature of C. M. Jackson is on the wrapper of each bottle.—These Bitters are manufactured by Dr. C. M. Jackson, No. 413 Arch street, Philadelphia, and are sold by druggists and storekeepers in every town and village in the United States. Canadas, West Indies, and South America, at 6 cents per bottle.

Hog CHOLERA Alarming accounts reach us from every section in regard to the ravages of this fearful epidemic. We have heard of but one certain cure. Mr. B. J. Montgomery, of Curdsville, very reliable goutleman, anys his neighbors are using Porter's Oriental Life Liniment with great ccess. One gentleman, who bad lost tifteen ogs in rapid succession with hog cholera, com nenced giving his hogs the Oriental Life Linimen and lost but one hog afterwards. This is certain ly worth the attention of farmers. The Linimen can be had at any country store. Give it a trial je26 d&wtf

From the Evening Mirror. GENERAL DEBLITY.—We would advise all who may be afflicted with general debility, to try McLean's Strengthening Cordial. It is, certainly a valuable remedy; many of our friends have tried it, and they recommend it very highly as a tonic and alterative. It is very pleasant to take.

Every country merchant, in laying in his supplies, should he sure totake some of this Cordial. It sells rapidly, hevond the most sanguine expect sells rapidly, hevond the most sanguine expe tations of the proprietor. One day last week h sold every bottle he had on hand. Now, with in creased facilities, he is enabled to supply all mands. See the advertisement in another column je29 deod12&w2-27

DR. STRAUS. SURGEON DENTIST WOULD inform the citizens of Louisville and its vicinity, that he has located himself here permanently, for the purpose of practicing his profession in all lis various branches, after the latest and most approved style. Having practiced for the last twenty years in New Orleans, I feel confident of giving satisfaction to every one who may honor me with a call. I would call the particular attention of the public to my mode of fill ing teeth, which is done in such a manner as to get twice the amount of gold into a cavity, as done in the usual way. I can, therefore, "guarantee" every tooth plugged in such manner to be as good as if never decayed.

Artificial teeth inserted—from one to an entire set—not only for beauty, but also for use, with or without suction, such as the case may require. Teeth extracted with as little pain as possible, and all other operations pertaining to dentistry.

BELLIGERENT APPRAYS IN MEXICO. - A letter to the New Orleans Delta from the city of Mexico, FOR RENT. says:—
A duel came off on the morning of the 3d, between an American and an Englishman, and all about our old friend Colonel Pickett. The latter said that Pickett was no gentleman, and the former said he was. So they fought, twenty paces with Colt's revolvers, firing six shots each; hut neither was hit. That's what I call remarkably good shooting, and I only hope that I may have the same good luck when I challenge you; but I caution you beforehand that I never use any other weapons than bottles. I HAVE leased this celebrated watering place for the ensuing season, and will open the same for the reception of visitors on the 16th of this month.
The celebrity of the Bine Lick Springs is such as to need no particular description. Situated on the Maysville and Lexington turnpike road, twenty miles from Paris, (the junction of the stage lines and the Covington and Lexington Raliroad), and twenty-four miles from Maysville, the location renders this place easy of access from all parts of the country.

The Hotel in all its adjuncts, has been thoroughly renovated and put in good repair. The proprietor can only promise that he will endeavor to keep a

FIRST-CLASS HOTEL in every respect, and, with the aid of pelite and experienced assistants, feels confident that, in point of comort to guests, the Biue Lick Springs will be second to no watering place in the West.

A fine band of music has been engaged for the season.

A complete Livery Stable is attached to the premises, where horses and buggies can be had at all times.

WHOLESALE AND RETAIL.

I HAVE received the agency for a new and much improved Coal Oil Lamp, which, from its great simplicity and economy, bids fair to appercede all others. A full, clearlight can be produced at a cost of less than & cent an hour, which is about one-third the cost of cent an hour, which is about one-third the cost of oil and candles. The wick is regulated with hoice patterns, from piain to fine parlor Lamps, which resold at much less price than any patent. For \$1.24 can sell a good strong Lamp that will burn three hours per night for a week without redlling, and not consume over IV cents worth of oil. I have also separate Burn-ers which can be fitted to Oil or Fluid Lamps of any kind. WILKES', next to National Hotel, Fourth street, Louisville, Ky
